

# Why do you give?

It's more than just charitable giving for Denise Deitchman and her family.

“My family supports the National Stuttering Association,” Denise says.

“They provide support and education for people who stutter and their families. My daughter has a stutter and this organization has been life-changing for all of us.”

We are honored that Denise chose the Long Island Community Foundation to do her giving. You can do the same.

## What do you care about?
