PROPOSAL NARRATIVE INSTRUCTIONS - LICF COMPETITIVE GRANTS PROGRAM

PLEASE NOTE: Your Narrative must include the following, not to exceed five (5) pages:

1. **Problem Statement:** Describe the need, problem, or situation that exists, which this project seeks to address. Provide a clear statement of the change that needs to happen. Include and cite statistics, facts and references from a national/state level and how it affects the communities of Long Island.
2. **Project description & activities:** Describe the nature of the project and overall goals and objectives. Include a project timeline (i.e. what is the timeframe for your activities), who will carry out the activities, and the population served.
3. **Expected outcomes & evaluation:** Provide a clear statement of the overall impact you expect to achieve. Include the indicators that you will use to measure success or progress toward achieving the project's objectives. Indicators should be measurable and should demonstrate clearly how you will know whether the grant was successful at the end of the grant period. These indicators should be outcomes not activities, i.e., the changes that would occur as a result of the grant activity, not just the successful completion of the activities themselves. *For example, we would not consider the following activities to be indicators of success: number of meetings, number of people at an event, production of a report. Rather, we would regard the following impacts of those activities as success indicators: how the meetings have moved a particular agenda item/action; how an event has assisted the attendees to improve service delivery; how a report is helping to change the course of a debate.*
4. **Sustainability:** Describe your plan for sustaining the project after LICF funding ends. What happens if you do not get the amount you seek from LICF? Detail how you will cover any shortfalls.
5. **Agency background:** Provide an organizational overview, including the date established, mission, major activities, and the organization's capacity/expertise for carrying out the proposed project including relevant previous work/activities.
